FEATURES & BENEFITS

FEATURES

- Inline modular mounting capabilities
- Ability to install to 45 degree increments
- Increased flow compared to competitive models
- Robust & removable knob
- 7-Year Warranty
- ISO Certified: ISO5782-2/ISO6301-2/ISO6953-1

BENEFITS

- Trouble-free installation and service
- Easier to adjust & maintain air
- Creates more money per SCFM
- Tamper-proof design
- Trust in product
- Proven certified product

See next page for visual features!

VISUAL FEATURES

V380 LOCKOUT

REMOVABLE CAP DESIGN

**REMOVABLE ADJUSTMENT
KNOB (SHOWN WITH DRAIN
TUBE)**

**EXTRA PORT (NO
INTERNAL THREADS)**

380 FILTER

- Complete shroud & double baffle resulting in "*Quiet Zone*"
- Efficient water removal & prevention of water migration downstream
- Elliptical element maximizes surface area, reducing pressure drop
- Higher water removal & Higher flow characteristics (up to 98%)

380 REGULATOR

- Increased flow compared to competitive models
- Improved relief characteristics
- Ability to install at 45 degree increments
- Captivated hardware
- Removable locking key
- Tamper resistant adjustment knob

shown with gauge & T-Handle

380 LUBRICATOR

- **Larger Bowl Capacity**
 - Standard- 9 oz.
 - Optional- 15 oz.
- Removable adjustment knob
- Tamper Resistant
- Transparent nylon sight feed
gives visual indication of oil being
delivered

380 COLOR CUSTOMIZATION
